

Web Browser Traffic

**Generate Tons of Exponentially Growing Traffic...
Passively!**

Using only Your Web Browser

Dear Internet Marketer,

Can you use your web browser to generate tons of targeted traffic to your website? Can you do it without lots of effort at all? How about multiplying the number of traffic everyday by actively giving this report away?

You can once you learn the secret that I'm about to tell you.

What Is Web Browser Traffic?

Web Browser Traffic is basically traffic generated by opening or browsing the Internet using Internet Explorer, Firefox or other web browsers. The more you browse the Internet, the more traffic credits you'll generate. However, browsing for credits is only one way, but I'm going to tell you more powerful way to apply Web Browser Traffic to get all the traffic credits you need.

Before anything else, you'll need two unique programs to help you earn credits in exchange for traffic. I've known these two programs to be reliable and honest in their operations. Moreover, once you setup the strategies I explain in this report, there's nothing much to focus on these two programs anymore. It means you'll get traffic *passively!*

Here are the two unique programs I'm referring to:

- 1) TrafficSwarm - <http://www.trafficswarm.com/go.cgi?235843>
- 2) InstantBuzz - <http://www.InstantBuzz.com/r/?5889>

TrafficSwarm awards you traffic credits when you setup your startpage to point to TrafficSwarm webpage, when you click on ads and when the people you refer to TrafficSawarm do the last two that I mentioned.

InstantBuzz awards you traffic credits when you browse the Internet, when you click on ads and when the people you refer to TrafficSawarm do the last two that I mentioned.

TrafficSwarm has been around for many years. I've heard many times people say TrafficSwarm works and almost as many others are saying the opposite. It's been the same for InstantBuzz too.

Now, think about the reasons why you'd **STILL** want to join TrafficSwarm and InstantBuzz.

1. You'd want to generate all the traffic that you want to any websites that you are promoting. There are two ways to generate the traffic from these two programs. The first method is to click on the ads and accumulate the credits, which you can exchange for traffic. The second method is to introduce these programs to others so that when they accumulate credits for themselves, you share the same credits as well. Obviously, the second method is the preferred method and I'll share the reason with you shortly.Y

2. You'd want people to click on your ads from either programs. This is when you'd want to sell your products, grow your subscriber list, introduce your business opprtunity etc.

The logical thing to do is click on the ads in both TrafficSwarm and InstantBuzz so that you can get credits in exchange for traffic, but I'm sorry to tell you that you'll not be able to generate tons of traffic by adopting this method only.

It'll take hours of your time to generate credits for 1000 hits and you can't afford that if you have only 1 or 2 hours a day for your internet business.

Even worse! Your 1000 credits could be used up in less than half an hour.

Soon, you'll find out that trading hours for those extra 1000 hits is not worth your time anymore.

The Right Way!

Now, I'm going to tell you how you can avoid the unnecessary mistake and take these 2 traffic generation methods to become your awesome traffic generation force - creating endless credits that you can exchange for traffic, using them up and growing them for as much as you want.

You'll never be generating traffic by clicking on ads anymore. Instead you'll get tons of traffic whenever you and other people open up their web browser.

That's how **PASSIVE** traffic credits will be generated.

But before that, go ahead and sign up TrafficSwarm and InstantBuzz if you've not done it yet.

TrafficSwarm - [Click Here To Join](#)

InstantBuzz - [Click Here To Join](#)

This method only works if you use both programs. Make sure you have joined and written down your TrafficSwarm and InstantBuzz IDs now.

How To Do It?

Simple, Really! You'll just have to CROSS-PROMOTE both programs until you've built enough referrals to TrafficSwarm and InstantBuzz.

You do that by giving this report (with your TrafficSwarm and InstantBuzz IDs in it) and educating others on how to build these two programs the right way.

In your TrafficSwarm member's only area, write a simple ad about how to generate thousands of free visitors to your website. Then, give this report away.

Here's a sample ad for TrafficSwarm:

[Web Browser Traffic](#)

Secrets to Generating Tons of Exponentially Growing Traffic Passively! Using Your Web Browser.

In your InstantBuzz member's only area, do the same thing. Write a simple ad about how to generate thousands of free visitors to your website. Then, give this report away.

Here's a sample ad for InstantBuzz:

Secrets to Generating Tons of Exponentially Growing Traffic Passively! Using Your Web Browser.

What you are doing is actually introducing and signing up new members in your InstantBuzz and TrafficSwarm programs. When you build large enough teams in both programs, that's when you'll see endless credits for your web traffic.

Every time your teams open up their web browser, you'll get credits.

Every time your teams refer new people to the programs, you'll get credits.

And the traffic keeps on accumulating as long as you and your teams keep on doing the two activities above.

Growing Traffic Exponentially!

Since you are giving this report away, the persons who receive this report will do the same thing - which is applying the same strategies discussed in this report and referring new members to InstantBuzz and TrafficSwarm.

InstantBuzz and TrafficSwarm are multi-tiered programs, meaning that you'll get credits from your referrals and your referrals' referrals for up to 5 levels in TrafficSwarm and unlimited in InstantBuzz.

When your referrals start to refer others to the programs, your website traffic credits will increase exponentially, and all is from your referrals opening up their web browser only. You'll get additional credits when they click on ads too.

Remember earlier when I said that you want to promote this report first before you promote your own products? That's because you want to prepare the traffic to your website first before you do anything else.

Once you get all the free traffic that you can't handle, now is the time for you to promote your own products, affiliate products or any business opportunity. You'll simply add more text ads in your TrafficSwarm and InstantBuzz member's only areas.

One thing for sure is that you want to keep on promoting this report so that you keep on adding your traffic credits on a consistent basis.

One More Step!

You read me saying that you and your referrals will be distributing this report to others.

This report will tell others how to properly use these 2 programs to draw traffic to your website without you even have to manually surf or click the ads to earn credits.

However, if your referrals cannot join your TrafficSwarm and InstantBuzz programs through your affiliate links, you won't get credits at all.

To solve that, I've made this report brandable.

If you click and join TrafficSwarm and InstantBuzz from any of the active links, you'll join these programs under the person who referred you to this report.

When you brand this report, your TrafficSwarm and InstantBuzz IDs will be embedded in this report as well. Give this report away and your referrals will join these programs under you.

It's a win-win-win situation.

Isn't it awesome?

To brand this report and promote TrafficSwarm and InstantBuzz on auto-pilot...

[CLICK HERE!](#)

I've also made sure that I won't be stealing your referrals. So, there'll be no mention of my TrafficSwarm or InstantBuzz IDs anywhere on my customization webpage.

The only way your referrals will join TrafficSwarm and InstantBuzz is through your links in this report.

So, here are the three steps again.

Step 1: [CLICK HERE TO JOIN TRAFFIC SWARM](#)

Step 2: [CLICK HERE TO JOIN INSTANT BUZZ](#)

Step 3: [CLICK HERE TO BRAND THIS REPORT!](#)

Conclusion

I hope you found these amazing strategies profitable for you. I really encourage you to give it a try. After all, it's free and all you have to do is refer others and open up your web browser to generate tons of traffic.

Be sure to brand this report today before you forget about it. Then, prepare the ads to promote this report in your TrafficSwarm and InstantBuzz member's areas. Do it today!

I've also found a great bonus gift on the subject of ***“Ultimate Viral Marketing”***. It's awesome, it's free and it's available **ONLY** if you brand this report today. I tell you... You definitely don't want to miss this awesome viral marketing report.

Wait no more. Brand this report today and pick up your ***“Ultimate Viral Marketing”*** report for free!
